

Car Rider Improvement Plan - Effective Monday September 23, 2019

Dismissing hundreds of students at one time is a challenge, but challenges demand solutions. During the short window of time when Lyons Mill Walkers are walking across Lyons Mill Rd, **ALL car riders will exit via the yellow highlighted route.**

Access to the traffic light and the corner of Wilson Shannon and Lyons Mill Rd. will be blocked off. Once all students are safely across the street, we will re-open access to the traffic light.

The goal of the brief restricted access is to increase car movement and decrease cars waiting through multiple cycles of the traffic light. Thank you for your cooperation during this minor change.
